

Performance Driving School

16 hrs 2 days
\$299 New Mexico Accredited NM170773

This course focuses on Safety- for you and those around you. You'll learn about your unit's abilities, how it may handle in certain situations, and how to potentially improve your driving skills. Information learned can be applied to pursuit driving, giving Law Enforcement Officer's additional knowledge and skills needed to gain confidence on and off the road. Advanced driving techniques and skills are accomplished through instruction, thinking and practice.

EVOC- Emergency Vehicle Obstacle Course-

40 hrs 5 days
\$325

This course is to train the prospective candidate in the methods of teaching Law Enforcement Officers the correct and safe operation of an emergency vehicle. The information provided includes, but is not limited to, teaching, correction, remediation and the logistics of running a driver trainer program or EVOC. The course consists of classroom lecture, group discussion, student-instructor led psychomotor skill demonstrations, and evaluations.

Controlled Friction Spin

16 hrs 2 days
\$299

This two day class offers both track and classroom instruction. Students will learn about auto physics, the act of threshold breaking, pursuit blocking and the controlled friction spin, which is a better and safer way for the public and Law Enforcement Officers in todays world.

Course will include classroom lecture, group discussion, student-instructor led psychomotor skill demonstrations and evaluations.

Remedial Driving for Law Enforcement

8 hrs 1 day
\$125

This course is designed for the Law Enforcement Officers involved in driving accidents. Even with the best planning, conditions can change at anytime. Students will learn proactive methods to become a better and safer driver in environments beyond comprehension. This course will include classroom lecture, group discussion, student-instructor led psychomotor skill demonstrations and evaluations.
